

Customized Strings

Plain Gut Strings

- Strings for historical instruments
- Brand "Chorda": traditional, plain gut string
- Polished with absolute precision across its entirety, the string is precisely the same diameter at all points. This gives the musician the potential for perfect intonation.
- Total string length 125 cm (49.21 inch)

DESCRIPTION

Customized Strings

Historical instruments continue to have a large fan community. The joy of discovering an old partita, or trying out an original instrument – acts which are exciting for an musician – are often quite problematic for string manufacturers.

The variations amongst baroque and renaissance instruments are so wide that offering a standard string is impossible. Therefore, we have developed a program which allows you to choose a string that suits best with your instrument. We would be delighted to help you to make your choice or to offer you a custom made string.

Chorda

Authentic strings for
baroque instruments

- typical sound for baroque instruments

DESCRIPTION

Chorda Cello Strings

Features

- The Chorda A- and D-strings are of plain sheep gut. The G- and C-strings are wound with a silver-plated copper wire and are unpolished.
- a brilliant and soft sound with enormous possibilities
- very low string tension, comfortable left hand feeling
- designed for 440 Hz tuning
- For 415 Hz tuning, please use "strong" gauge.
- Altering the PM gauge by 1/2 PM changes the tension by 4%.
- authentic strings for baroque instruments

Set

- The medium set contains the following strings:
A plain gut 21
D plain gut 29
G silver-plated copper wire 27 1/2
C silver-plated copper wire 36

Tailpiece Options

- A- and D-strings come without knot.
- G- and C-strings come with knot.

Gauges

- Chorda strings are manufactured in three gauges in steps of 1/2 PM.

Sizes

- Chorda strings are available in 4/4.

ROSIN

For best result we recommend that you use Cellisto rosin.

Evah Pirazzi

- steel strings
- very brilliant sound
- warm core sound
- long decay
- Different design of the three gauges results in distinctive sound differences.

DESCRIPTION

Evah Pirazzi Cello Strings

Features

- The A- and D-strings have a core made from a single filament of high-tensile steel and are wound with chrome steel. The G- and C-strings have a rope core wound with tungsten.
- The A- and D-strings offer great brilliance combined with a warm core sound. The transition from the D- to the G-string is smooth, whereas the G-string offers even more depth and a greater sound volume. The C-string has a powerful open sound, vibrates freely and offers enormous possibilities.
- The whole set offers great brilliance based on a warm core sound.
- These strings offer excellent responsiveness and control ability across the whole dynamic range, from pianissimo to fortissimo.
- The different design of the three gauges results in distinctive sound differences:
 - gauge soft - warmer sounding set than medium gauge
 - gauge strong - considerable volume and brighter sound than medium gauge
- exceptional tuning stability and immediate playability
- suitable also for electric or electrically-amplified cellos

Gauges

- soft:
warmer sounding strings than medium gauge
- medium:
brilliant sound based on a warm core sound
- strong:
considerable volume and brighter sound than medium gauge

Sizes

- Evah Pirazzi strings are available in 4/4 and 3/4–1/2 size.
- The string set for the 3/4–1/2 instruments has been constructed on the same basis and from the same materials as the Evah Pirazzi 4/4 strings. As a result of their smaller diameter, they are light and pleasing to play. They have a wonderful set harmony, are long-lasting, and are offered at an attractive price.
- The string set for the 1/4 – 1/8 instruments is available on special request. Please [contact us](#).

Special Feature: Recommendation

The following string combinations are used by various professional cellists:

1. Passione A medium, Passione D strong, Evah Pirazzi G strong, Evah Pirazzi Soloist C - round and powerful sound
2. Passione A medium, Evah Pirazzi Soloist D, Evah Pirazzi G strong, Evah Pirazzi Soloist C - bright and powerful sound

Please note that changing the gauge of one string in a set affects the sound of the remaining three other strings.

Variations

- Cello Strings for ZMT: These are specialized, elongated C strings, custom made for ZMT. If you are interested in these strings please [contact us](#).

Evah Pirazzi Gold

A refined and powerful string

- playing-in time is reduced to a minimum
- clear, full and focused sound with character
- excellent responsiveness, from pp to ff

DESCRIPTION

Evah Pirazzi Gold Cello Strings

Features

- The A- and D-strings have a high-tensile steel core and are wound with a precision chrome steel flat wire, while the G- and C-strings have a specially designed steel rope core with a top-quality tungsten winding.
- The elegant sound of the new Evah Pirazzi Gold cello strings is clear, full, with character.
- These new steel strings provide a variety of overtones with great projection – without any metallic sharpness.
- Our new Evah Pirazzi Gold cello strings are extremely responsive and react quickly over the entire dynamic range; even with very gentle bow pressure.
- With their reduced playing-in time the instrument achieves its full sound spectrum in no time.
- suitable also for electric or electrically-amplified cellos
- Each Evah Pirazzi Gold cello string has its own individual character and at the same time their interplay generates a wonderfully harmonious set.
- Beginning with a smooth and rich spectrum of sound colors, the A-string has a warm and silvery sound that will easily satisfy the expectations of soloists.
- Charm, brilliance, and lightness are the sound characteristics of the D-string.
- The seamless transition to the G-string adds a further nuance that can be heard: The sound becomes very grand and develops an impressive radiance – even straight after stringing.
- Vibrant and resonant the C-string was designed to provide the player with a focused direct sound that will inspire and at the same time bring this set to its powerful completion.

Gauges

- medium

Sizes

- Evah Pirazzi Gold strings are available in 4/4.

Tailpiece Options

- All strings have a ball-end.

Evah Pirazzi Soloist

- steel strings
- striking and robust sound
- enormous expressive power
- long decay
- excellent response

DESCRIPTION

Evah Pirazzi Soloist Cello Strings

Features

- The A- and D-strings have a core made from a single filament of high-tensile steel and are wound with chrome steel. The G- and C-strings have a rope core wound with tungsten.
- The A- and D-strings provide an enormous brilliance and a warm fundamental tone. The G- and C-strings have a very pronounced core sound with great projection; a long decay and extensive lower tone spectrum.
- A powerful set for the soloist with a direct, open tone and enormous expressive possibilities.
- As a result of the smaller diameter, these strings make it easy to change positions and to achieve a distinctive response.
- immediately playable and exceptional tuning stability
- suitable also for electric or electrically-amplified cellos

Sizes

- Evah Pirazzi Soloist strings are available in 4/4.

Special Feature: Recommendation

The following string combinations are used by various professional cellists:

1. Passione A medium, Passione D strong, Evah Pirazzi G strong, Evah Pirazzi Soloist C - round and powerful sound
2. Passione A medium, Evah Pirazzi Soloist D, Evah Pirazzi G strong, Evah Pirazzi Soloist C - bright and powerful sound

Please note that changing the gauge of one string in a set affects the sound of the remaining three other strings.

Passione (Gut)

The powerful gut string

- wound gut strings
- powerful sound
- brilliant sound and enormous possibilities
- very quick response

DESCRIPTION

Passione (Gut) Cello Strings

Features

- The sheep gut core of the *Passione* strings is manufactured, wound and polished in the traditional way, by hand. The G-string is wound with chrome steel, the C-string with tungsten.
- brilliant sound
- enormous possibilities with a wide range of sounds
- surprisingly flexible
- very quick response even in the highest positions and easy playability due to the small string diameter
- a significantly reduced playing-in-time for gut core strings
- All strings have a ball-end.
- Altering the gauge by 1/2 PM changes the tension by 4%.

Gauges

- Passione G- and C-strings are manufactured in three gauges in steps of 1/2 PM.

Tailpiece options

- All strings come with a ball-end in order to facilitate the installation.

Sizes

- Passione G- and C-strings are available in 4/4.

Passione (Steel)

Touch the Future

- steel core strings
- full rounded and warmer sound
- diverse spectrum of overtones
- excellent response

DESCRIPTION

Passione (Steel) Cello Strings

Features

- Passione A- and D-strings have a single filament steel core wound with chrome steel.
- Exceptionally full rounded and warm sound which is combined with a diverse spectrum of overtones.
- inspiring and noble sonority
- precise and clear tone up to the highest register
- enormous power
- excellent response
- harmonious transition from A- to D-string

Gauges

- soft, medium and strong

Sizes

- Passione steel core A- and D-strings are available in 4/4.

Special Features: Recommendation

The following string combinations are used by various professional cellists:

- Passione A medium, Passione D strong, Evah Pirazzi G strong, Evah Pirazzi Soloist C - round and powerful sound
- Passione A medium, Evah Pirazzi Soloist D, Evah Pirazzi G strong, Evah Pirazzi Soloist C - bright and powerful sound

Please note that changing the gauge of one string in a set affects the sound of the remaining three other strings.

Permanent

- steel strings
- brilliant sound
- warm core tone
- short decay
- very quick response

DESCRIPTION

Permanent Cello Strings

Features

- The A- and D-strings have a core made from a single filament of high-tensile steel and are wound with chrome steel. The G- and C-strings have a rope core wound with tungsten.
- The A- and D-strings are brilliant and bright sounding.
- The G- and C-strings provide a warm and powerful sound and have a short decay.
- very quick response
- exceptional tuning stability and immediate playability
- suitable also for electric or electrically-amplified cellos

Perpetual

Assertiveness and Projection

- great dynamic range enhancing the unique natural qualities of each cello
- minimal playing-in time

DESCRIPTION

Perpetual Cello Strings

Features

Our engineers were faced with the challenge of developing a string using ground-breaking construction and superior material composition, while creating the machines required to achieve this. Our musical intuition and expertise allowed us to realize this milestone in our developmental work.

We approached the field of violoncello strings from an entirely new perspective: being able to forget your surroundings and focus on playing is what inspires and comforts a cellist. Therefore the key parameters we had to meet were easy playability, long durability, and perfect string-to-string harmony.

This new idea laid the foundation for us to make changes to the materials and processing techniques so that the strings acquired a further tonal dimension. This new dimension opens up the instrument to its full tonal colors and grants musicians the technical freedom to fully focus on their play.

Perpetual strings are characterized by great flexibility and an extraordinary tonal spectrum: from a sweet, warm tone to sheer endless power – everything is possible. The sound is like a large house with plenty of room for individual design. At the same time the tone is focused and clear, the most delicate touches are instantly audible and the base warmth always present. The natural qualities and timbre of each cello are enhanced by the strings' great dynamics and intensity.

During the development we concentrated on reducing the break-in time. Our technicians did an impressive amount of research and analysis to develop a device for measuring the settling-in time, so each individual string can be tuned and brought to pitch before dispatch. This enables the materials used in the string to adjust and settle which significantly reduces the break-in time.

Sound Chart

Choose your favorite string combination

The Perpetual Sound Chart is intended to help cellists find the ideal string set for their playing style and instrument. Additional strings such as Evah Pirazzi Gold and Passione Steel A & D were added in order to provide as many tonal variations as possible.

Set

Edition Set

As a musician put it, the Perpetual Edition is the most power-packed set in our program. Strong and clear core sound on the G & C strings in combination with full and round sounding A & D.

Soloist Medium Set

The Perpetual Soloist is designed for the cellist who desires radiance and clarity on the G & C strings in combination with warm sounding A & D.

Medium Set

Designed to have the signature Pirastro warmth but with a stronger fundamental on the G & C strings in combination with clear and brilliant A & D.

Sizes

- Perpetual strings are available in 4/4.

Tailpiece Options

- All strings have a ball-end.

Variations

A Soloist Weich/Medium/Strong

Thanks to their advanced technology these A-string options offer special features that many cellists will appreciate. The strings will reveal their very warm and round sound to the musician as soon as they are played for the first time, while remaining focused without any metallic sharpness. The Cello Perpetual A Soloist string is the warmest sounding in the PIRASTRO program.

We also offer the »Strong« version for a voluminous deep and very powerful sound with this impressive construction. If you are looking for a dark and velvety sounding string with low tension, the »Weich« version is certainly of particular interest.

C Edition Strong

This C string offers a very powerful and strong core sound along with a deep and wonderful warm tone. Its unique special construction results in an enhanced torsional stiffness and tuning stability with a very fast and direct bow response, making it the most

sonorous C in the Pirastro program.

G & C Cadenza

Utilizing the same core construction as the Perpetual Soloist, the Cadenza G & C strings were created to provide players with lower tensions to match their instruments and allow older cellos to open up and play freely.

Strings for ZMT

Cello Strings for ZMT: These are specialized, elongated C strings, custom made for ZMT. If you are interested in these strings please contact us.

Student Cello Set

- Passione A and D medium and Chromcor G and C
- steel core strings
- warm and round sound with a clear powerful tone
- excellent bow response

DESCRIPTION

Student Cello Set of Strings

Features

- All four strings have a solid steel core made from a high-tensile steel and are wound with chrome steel.
- Outstanding value for money.
- Combination of strings specially attuned to the requirements of students and their instruments.
- Excellent bow response on all strings thanks to a solid steel core, especially on the G- and C-strings.
- Easy left hand response with little finger pressure necessary!
- No metallic sharpness with A- and D-strings.
- Warm and round sound with a clear powerful tone.

Gauges

- medium

Sizes

- 4/4

Special Feature

While working with some of the best violin makers we have come up with a cello set that is an excellent choice for students:
Cello Passione A and D medium combined with Cello Chromcor G and C.

We trust that these strings represent a great alternative for your rental instruments and for your student customers.

Alto-Gamba

Strings made from sheep gut have been mentioned in the history of string instruments since earliest times. While nomadic peoples used tendons and horse hair, following the finding of an Egyptian lute from 1500 BC, we know that the Egyptians had already mastered the techniques of gut string manufacturing.

It is possible that a gut rope made of thin twisted gut filaments was used for the lower strings in the later centuries.

The metal wound strings which we use today did not start to be developed until the middle of the 17th century, at the time of Stradivarius.

To offer you this authentic stringing at today's high quality we have reconstructed these developments and incorporated them into our gamba string program.

DESCRIPTION

Alto-Gamba Strings

Fundamentally even today it is still possible to use plain gut strings for the lowest strings of the gamba, however the stiffness and thickness of the mono-filament of the gut string is a considerable impairment to playability of the deeper notes.

It is only since 1660 that spinning with copper has evolved. However, the most popular winding is silver-plated copper wire, which has the advantage of the silver coating combined with the sound quality of the copper string.

Bass (Tenor)- Gamba

Strings made from sheep gut have been mentioned in the history of string instruments since earliest times. While nomadic peoples used tendons and horse hair, following the finding of an Egyptian lute from 1500 BC, we know that the Egyptians had already mastered the techniques of gut string manufacturing.

It is possible that a gut rope made of thin twisted gut filaments was used for the lower strings in the later centuries.

The metal wound strings which we use today did not start to be developed until the middle of the 17th century, at the time of Stradivarius.

To offer you this authentic stringing at today's high quality we have reconstructed these developments and incorporated them into our gamba string program.

DESCRIPTION

Bass (Tenor)-Gamba Strings

Fundamentally even today it is still possible to use plain gut strings for the lowest strings of the gamba, however the stiffness and thickness of the mono-filament of the gut string is a considerable impairment to playability of the deeper notes.

It is only since the year 1660 that winding with round copper wire has evolved. The most popular version of this

winding is silver plated round copper wire, which has the advantage of the silver coating combined with the sound quality of the copper string. Additionally, the C4 string is available with copper-aluminum round wire winding. All three versions are unpolished.

For studio takes we recommend silver wound gut strings with a polished surface resp. aluminum wound gut strings with a polished surface. They are quiet even as your fingers change position on the fingerboard. However, it has only been possible to manufacture this sort of string since the 20th century.

Pardessus (High-Treble)

Strings made from sheep gut have been mentioned in the history of string instruments since earliest times. While nomadic peoples used tendons and horse hair, following the finding of an Egyptian lute from 1500 BC, we know that the Egyptians had already mastered the techniques of gut string manufacturing.

It is possible that a gut rope made of thin twisted gut filaments was used for the lower strings in the later centuries.

The metal wound strings which we use today did not start to be developed until the middle of the 17th century, at the time of Stradivarius.

To offer you this authentic stringing at today's high quality we have reconstructed these developments and incorporated them into our gamba string program.

DESCRIPTION

Pardessus (High-Treble) Strings

Fundamentally even today it is still possible to use plain gut strings for the lowest strings of the gamba, however the stiffness and thickness of the mono-filament of the gut string is a considerable impairment to playability of the deeper notes.

It is only since 1660 that spinning with copper has evolved. However, the most popular winding is silver-plated copper wire, which has the advantage of the silver coating combined with the sound quality of the copper

Chorda

- gut strings
- warm sound
- long sustain

DESCRIPTION

Chorda Double Bass Strings

Features

- The sheep gut core of the Chorda strings is manufactured, wound and polished in the traditional way, by hand.
- The Chorda G- and D-strings are plain sheep gut strings. The A- and E-strings are wound with silver-plated copper wire.
- inspirational warm sound with an enormous dynamic range
- especially suited for pizzicato
- an authentic string for Early Music
- very low tension, comfortable left hand feeling

Set

- available in orchestra tuning

Variations

- Carlos Henriquez Set:
Due to the selection of special gauges - which were used in the 50s and 60s - these strings have a lower string tension.
If you are interested in these strings please contact us.

Evah Pirazzi

*The natural choice for
an all-round string*

- modern synthetic core strings
- suitable for arco and pizzicato alike
- powerful, big and dark sound
- outstanding resonant decay
- high torsional stiffness

DESCRIPTION

Evah Pirazzi Double Bass Strings

Features

- Evah Pirazzi strings have a core made from a modern synthetic multifilament fibre which is wound with chrome steel.
- The all-round string set: suitable arco and pizz alike.
- The sound is big, powerful, dark and well-rounded.
- emphasized lower frequencies and outstanding resonant decay
- exceptional projection
- high torsional stiffness
- short playing-in-time
- very quick response and comfortable left-hand feeling
- completely insensitive to changes in temperature and humidity
- Gauge "weich": Compared to the medium orchestra set the sound of the "weich" strings is brighter and growlier with a little more sustain. The set has a pronounced core sound. Due to the reduced string tension the playability is easier than with the standard set.

Evah Pirazzi Slap

- designed for the Rockabilly and Slap Bass players
- G and D plain gut or G synthetic core aluminum wound and D synthetic core chrome steel wound
- A and E synthetic core chrome steel wound

DESCRIPTION

Evah Pirazzi Slap Double Bass Strings

Features

- The Evah Pirazzi Slap set is a unique blend of modern and traditional core materials, combining a plain gut G and D with a synthetic core chrome steel wound A and E.
- The tone is dark and rich with great projection which is ideal for slap style but also great for old-school pizzicato, for jazz players with modern instruments and for baroque arco styles.
- The tension is low and even across the entire fingerboard.
- The plain gut G and D of the Evah Pirazzi Slap set are made of sheep gut using new techniques which allow for reduced playing-in-time and increased tuning stability without losing the beauty of the gut sound.
- The core material of the A and E consists of a new synthetic material that we have co-developed with our supplier and which we obtain exclusively.
- This new core material offers an unmatched wide range of sounds, is absolutely insensitive to temperature and humidity changes, and offers the musician an unparalleled dynamic range.
- The A and E strings are then precision wound with a finely polished chrome steel flat wire.
- The design of each individual string has been carefully matched to one another allowing for effortlessly smooth transitions from string to string without any tonal break between the plain gut D and synthetic A.
- Also available as a complete modern synthetic core set: Providing the same warm and round sound, low string tension, very easy playability with exceptional tuning stability, all at an very attractive price!

Set

- Orchestra tuning

Variations

- G- and D-strings are also available as modern synthetic core strings, wound with aluminum (G) and chrome steel (D).

DETAILS

The new Evah Pirazzi Slap set is especially designed for the Rockabilly and Slap Bass players. This new set excels through its full-bodied, powerful, and strong sound from the very bottom to the top of the register.

The Evah Pirazzi Slap set is a unique blend of modern and traditional core materials, combining a plain gut G and D with a synthetic core chrome steel wound A and E. The tension is low and even across the entire fingerboard and the design of each individual string has been carefully matched to one another allowing for effortlessly smooth transitions from string to string without any tonal break between the plain gut D and synthetic A.

The tone is dark and rich with great projection which is ideal for slap style but also great for old-school pizzicato.

The gentle processing of the gut core is key to conserving the ravishing beauty of the gut strings' sound. At PIRASTRO we exclusively work with sheep gut and have been developing our expertise in processing gut strings since 1798. Our family formula has been carefully protected over generations within PIRASTRO's employees. The plain gut G and D of the Evah Pirazzi Slap set are made using new techniques which allow for reduced playing-in-time and increased tuning stability without losing the beauty of the gut sound.

The core material of the A and E consists of a new synthetic material that we have co-developed with our supplier and which we obtain exclusively. This new core material offers an unmatched wide range of sounds, is absolutely insensitive to temperature and humidity changes, and offers the musician an unparalleled dynamic range. The A and E strings are then precision wound with a finely polished chrome steel flat wire.

UPDATE JANUARY 2016:

Alternative modern synthetic core G- and D-strings are also available.

Flexocor Deluxe

- rope core steel strings
- versatilely usable string
- great wealth of tone colors
- unmatched projection
- awesome playability

DESCRIPTION

Flexocor Deluxe Double Bass Strings

Features

- The core material is a high-tensile rope made from carbon steel which offers great flexibility. All strings are wound with chrome steel.
- suitable for solo passages of orchestral performance, classical orchestral repertoire and pizzicato passages
- A string which likes to be challenged to translate every minute impulse from bow or finger into brilliantly clear or voluminously dark sounds with lightning speed.
- Great wealth of tone colors: a brilliant and bright or a dark and big sound - everything is possible.
- full resonance and unmatched projection
- outstandingly easy playability at all dynamic levels
- Intonation: The strings offer the performer a perfect sense of control and security at all times.
- immediately playable and outstanding stability
- instantaneous response

DETAILS

The FLEXOCOR DELUXE Bass string covers the entire spectrum: it is equally suitable for solo performance and classical orchestral repertoire, it has a natural pizzicato sound – everything works just wonderfully!

This is an exacting steel string which likes to be challenged to translate every minute impulse from bow or finger into brilliantly clear or voluminous dark sounds with lightening speed.

The wealth of tone colors is amazing; the string has to potential to produce very bright as well as very warm sounds while each and every tone carries its own specific natural beauty. The strings have a long-lasting and full resonance; they respond perfectly at all dynamic levels.

Because of its particular structure, the FLEXOCOR DELUXE string possesses excellent resonance qualities and unsurpassed carrying power. The string reacts immediately and resonates with minimum effort from the player. When it comes to intonation, its characteristic way of handling is truly impressive, it allows the performer to have perfect sense of control and security at all times, enabling him to instantly recognize even the slightest discrepancy.

FLEXOCOR DELUXE strings are extremely long-lasting and excel by the harmonious balance of the set as a whole. They are instantly playable and their tuning stability is exemplary which are most important features for the comfort of the performer.

Obligato

- modern synthetic core strings
- suitable for arco and pizzicato
- bright, brilliant and focused sound

DESCRIPTION

Obligato Double Bass Strings

Features

- Obligato strings have a core made from a modern synthetic multifilament fibre which is wound with chrome steel.
- bright, brilliant and focused sound
- growly tone especially true for the E-string
- very quick response
- suitable for arco and pizzicato
- exceptional well-balanced set
- completely impervious to changes in temperature and humidity

Set

- Orchestra tuning
- Solo tuning
- Tuning in 5th: A - D - G - C

Variations

- E 2.10m
- B5
- C High Solo
- CIS5 Solo
- Tuning in 5th: The low C is also available as a special rope core steel string which results in a powerful and very dark tone.

Passione

- rope core steel strings
- especially suited for arco
- round, noble and very warm sound
- big tone, powerful volume
- instantaneous response
- short sustain

DESCRIPTION

Passione Double Bass Strings

Features

- The core material is a high-tensile rope made from carbon steel which is wound with chrome steel.
- round, noble and very warm sound fundament combined with a complex overtone spectrum which results in a deep sound
- great projection
- big tone, powerful volume
- especially suited for arco
- response: instantaneous and very flexible, clear distinction between the notes in fast passages
- only little bow pressure needed for the sound production as the string vibrates very easily
- immediate playability and absolute tuning stability
- 5-string set: Due to the reduced tension of the B5-string the set vibrates freely.
- Gauge "strong": Compared to the medium orchestra set the sound is more brilliant and the string tension is higher.

DETAILS

PASSIONE – BREAK NEW GROUNDS:
*Free your arco playing.
Impress your audience with your sound!*

While developing the Passione for the orchestra bassist we have not made any compromises in the construction of the string in order to offer optimal sound and playability characteristics. The result is a set of double bass strings which offers outstanding arco playability and an inspiring diversity of sounds. It allows the bassist to use all possible bow strokes to create the desired sound.

The core sound is full, round and warm and has a complex overtone spectrum which results in a deep and noble sound with great projection and power.

The sustain characteristics of the string allow a strong, big and warm pizzicato – Bass PASSIONE is a modern and very reliable steel core string suitable for the ambitious bassist.

The response is incredibly easy and flexible. The notes are separate and distinctively clean when played in fast passages. No matter whether playing Spiccato or Legato, the sound can be altered as desired not depending on the bowing speed.

The big advantage of the Passione strings is that the sound does not need to be developed by using excess bow pressure as the strings vibrate freely and easily. The set is extremely well-balanced concerning tension and sound. Immediate playability and exceptional tuning stability are important additional advantages which offer great comfort to the bassist.

Perpetual

- extremely flexible rope core steel strings
- tremendous volume and clarity
- easy and comfortable left hand feel
- highly articulate and dynamic response

DESCRIPTION

Perpetual Double Bass Strings

Features

- All strings are chrome steel wound on a uniquely designed and extremely flexible high-tensile steel rope core.
- Tremendous projection and clarity, a powerful and focused low end gives way to a full, sophisticated upper register.
- Very consistent and precise pizzicato attack with an additional punchiness on the lower strings.
- Extremely energetic with very little effort and a juicy right hand feel when played pizzicato, yet strong and complex with good stability under the bow.
- Highly articulate bow response without being brittle
- Breaks in quickly with excellent stability
- Mainly developed for pizzicato, the new Perpetual double bass strings are also for arco players looking for a precise and clear tone with a wide variety of dynamics.
- SOLO SET: The Perpetual Solo Set works very well as an arco classical string for Solo Bass material. The strings are colourful, projecting, and have a consistent clean attack, with a wonderful singing quality.

Perpetual Possibilities

As string makers, the first question we are usually asked when we introduce a new set of double bass strings is what style of playing are they most suitable for? With our new Perpetual bass set, we would like to encourage the players to decide for themselves. Mainly developed for pizzicato, the new Perpetual double bass strings were designed to provide the player with a comfortable left hand feel, fast articulate response, and strong energetic tone. Using a new uniquely designed extremely flexible steel rope core, the Perpetual double bass strings provide incredible stability and tremendous power. With a little adjustment on the players end, the voice can be manipulated to suit a wide variety of styles. A powerful and focused low end gives way to a full, sophisticated upper register.

When played arco the Perpetual bass has a clear yet complex tone with an intense power that can be felt by the musician as well as the listener. With their effortless left hand feel and an astonishingly quick bow response, the Perpetual allows the player to practice for long periods of time with little fatigue.

In closing, at PIRASTRO we know very well that no individual bass set is suited to fit every player and every style of music but cordially invite you to discover the Perpetual possibilities of this unique 21st century string set.

Perpetual Stark

- extremely flexible rope core steel strings
- very full, warm and complex sound
- easy and comfortable left hand feel
- highly articulate and dynamic response

DESCRIPTION

Perpetual Stark Double Bass Strings

Features

- All strings are chrome steel wound on a uniquely designed and extremely flexible high-tensile steel rope core.
- Breaks in quickly with excellent stability
- Tremendous projection and clarity, a powerful and focused low end gives way to a full, sophisticated upper register.
- The new Double Bass Perpetual „Stark“ strings are a wholly unique development that in comparison to Perpetual „Mittel“ have a fuller and warmer sound with an especially high gauge. They are the thickest strings in our steel string range, and yet their string tensions remain close to those of the Perpetual „Mittel“ strings. Thanks to their special and highly elaborate construction, the new Double Bass Perpetual „Stark“ strings produce immense volume and can be played with surprising and incredible ease. The thicker diameter supports the strings' response, bringing you pure joy in both pizzicato and bowed playing. Whether you play classical, jazz, or modern music, in an orchestra, or as a soloist, these strings will inspire you.

Chorda

- plain gut strings
- oiled or lacquered
- warm and smooth gut sound

DESCRIPTION

Chorda Concert Harp Strings

Features

- The sheep gut of the Chorda strings is hand-manufactured in the traditional way.
- Polished with absolute precision, the strings have the same, precise diameter throughout their entire length. This gives the musician the potential for perfect intonation.
- typical warm and smooth gut sound
- Chorda harp strings come either slightly oiled or lacquered for protection.
- The strings are lacquered in order to prevent them from fraying.
- The sound of the lacquered strings is slightly brighter.
- All F-strings are colored black, all C-strings red.

Concert Harp > Gut Strings > Chorda

Set

- The sets 1st to 4th octave are available in medium gauge.

Gauges

- 0. to 3rd octave: in medium and strong
- 4th and 5th octave only in medium

Packaging

- envelope

Tailpiece Options

- Chorda strings have neither a ball-end nor a knot.

Chromcor

- steel strings
- available for 5th and 6th octave
- long-lasting
- perfect intonation

DESCRIPTION

Chromcor Concert Harp Strings

Features

- Chromcor strings are made from a single filament, high-tensile steel wire and are wound with silver-plated copper wire.
- available for 5th, 6th and 7th octave
- long-lasting
- brilliant and growly sound
- Polished with absolute precision, the strings have the same, precise diameter throughout their entire length. This gives the musician the potential for perfect intonation.
- available from 5th octave C-string to 7th octave C-string
- C-strings are colored in red; F-strings in blue-grey.

Concert Harp > Steel Strings > **Chromcor**

Set

- The sets 5th to 7th octave are available in medium gauge.

Tailpiece Options

- All Chromcor strings have a ball-end.

Gauges

- Chromcor strings are available in medium.

Packaging

- envelope

Viola > Gut Strings > Chorda

Chorda

Authentic strings for
baroque instruments

- plain gut strings
- typical sound for baroque instruments
- for an individual set-up: various G- and C-strings available

DESCRIPTION

Chorda Viola Strings

Features

- Chorda A- and D-strings are plain gut strings, G- and C-strings are wound.
- authentic strings for baroque instruments
- typical sound for baroque instruments
- very low string tension, comfortable left hand feeling
- designed for 440 Hz tuning
- For 415 Hz tuning, please use "strong" gauge.
- Altering the gauge by 1/4 PM changes the tension by 3%.

Viola > Gut Strings > Chorda

Set

- The medium set contains the following strings:
A plain 14 1/2,
D plain 19 1/2,
G silver-plated copper wire 16 1/2,
C silver-plated copper wire 22 1/2

Tailpiece Options

- Chorda A- and D-strings come without knot.
- G- and C-strings come with knot.

Gauges

- Chorda strings are manufactured in three gauges in steps of 1/4 PM.

Sizes

- All Chorda strings are available in 4/4.

Viola > Synthetic Strings > **Evah Pirazzi**

Evah Pirazzi The Soloists' Choice

- modern synthetic core strings
- powerful and brilliant sound
- excellent response

DESCRIPTION

Evah Pirazzi Viola Strings

Features

- Evah Pirazzi strings have a core made from a modern synthetic multifilament fibre.
- powerful, brilliant and colorful sound, based on a warm core sound
- enormous projection
- wide dynamic range
- Evah Pirazzi strings emphasize the individual sound picture of each instrument.
- immediately playable
- excellent response throughout the complete dynamic range
- absolutely insensitive to variations in temperature and humidity
- also suitable for electric violas or violas equipped with piezo-pickups

Set

- A-steel/chrome steel
- D- and G-silver
- C-tungsten-silver

Variations

- The alternative A-string has a synthetic core and is wound with aluminum. It offers a warm sound and an easy response.
- Viola Strings for ZMT: These are specialized, elongated C strings, custom made for ZMT. If you are interested in these strings please [contact us](#).

Gauges

- soft
- medium
- strong
- Straight strings are only available in medium gauge.

Tailpiece Options

- All strings have a ball-end.
- A-steel strings with removable ball.

Packaging

- envelope
- straight

Sizes

- All Evah Pirazzi strings are available in 4/4.

Special Features

The core material of the string lines Evah Pirazzi Gold, Evah Pirazzi and Obligato consists of a new synthetic material that we have co-developed with our supplier and which we obtain exclusively.

We are convinced that this new core material is superior to other synthetic materials and steel, because:

- it offers an unmatched wide range of sounds,
- absolutely insensitive to variations in temperature and humidity, and
- it offers musicians an unknown dynamic range.

In combination with our newest production techniques we are now able to offer a new family of strings, which offer:

- a complex tone, rich with overtones;
- bring out finest nuances in pp and great depth in ff;
- great playability;
- outstanding response and
- outstanding tuning stability
- which can be used in any environment no matter the degree of humidity or changes of temperature.

- modern synthetic core strings
- brilliant, golden tone
- impressive projection
- full-bodied sound
- outstanding playability and instant response
- also available as a complete steel string set

DESCRIPTION

Evah Pirazzi Gold Viola Strings

Features

- Evah Pirazzi Gold strings have a core made from a modern synthetic multifilament fibre.
- brilliant, golden tone
- full-bodied and big sound from the very bottom to the top of the register
- a wide range of sound colors
- The great dynamic range allows skilled players to explore confidently both the finest nuances of quiet passages and create powerful sonorities when playing close to the bridge or using a strong bow arm.
- instant response throughout the complete dynamic range
- very short break-in time, even shorter than Evah Pirazzi and Obligato
- excellent tuning stability
- absolutely insensitive to variations in temperature and humidity

Steel A-string

- The new Evah Pirazzi Gold steel A-string has been further improved to provide superior responsiveness thanks to our unique construction method.
- This steel A-string has a grand, elegant and smooth tone even while being played in the higher register.
- Developed for the player looking for something slightly warmer than the Passione steel A-string.
- Great sound depth with no metallic sharpness to the ear.
- Enormous capacity and power.
- The steel core A-String Evah Pirazzi Gold blends well with our other sets of strings, especially the Perpetual, Evah Pirazzi, Obligato and Passione strings.

Set

- The standard set contains the following strings: A-steel/chrome steel, D- and G-silver, C-tungsten-silver
- Alternative set with the steel C-string: A-steel/chrome steel, D- and G-silver, C-rope core/tungsten
- Complete steel string set: A-steel/chrome steel, D-rope core/chrome steel, G-rope core/chrome steel, C-rope core/tungsten

Tailpiece Options

- All strings have a ball-end.
- A-steel string with removable ball.

Gauges

Variations

Set Steel

The innovative new Evah Pirazzi Gold steel core viola set alternative offers a tremendously brilliant direct sound with absolutely no metallic harshness. These strings react to the smallest of bow strokes and convert each movement into a wonderfully harmonious sound image, all while enhancing the impressive very warm sound characteristics of the A-string. The sets D-, G- and C-strings are made with a high-precision steel rope core material. The D- and G-strings are wound with chrome steel while the C is wound with a fine tungsten wire that has been specifically developed for use on musical strings. The special processing of the materials allows these steel strings to provide the player with a large and soloistic volume of sound.

ZMT

Viola Strings for ZMT: These are specialized, elongated C-strings, custom made for ZMT. If you are interested in these strings please [contact us](#).

Special Features

The core material of the string lines Evah Pirazzi Gold, Evah Pirazzi and Obligato consists of a new synthetic material that we have co-developed with our supplier and which we obtain exclusively.

We are convinced that this new core material is superior to other synthetic materials and steel, because:

- it offers an unmatched wide range of sounds,
- absolutely insensitive to variations in temperature and humidity, and
- it offers musicians an unknown dynamic range.

In combination with our newest production techniques we are now able to offer a new family of strings, which offer:

- a complex tone, rich with overtones;
- bring out finest nuances in pp and great depth in ff;
- great playability;
- outstanding response and
- outstanding tuning stability
- which can be used in any environment no matter the degree of humidity or changes of temperature.

Statement

Robert Cauer:

»I just tried out your new Evah Pirazzi Gold string set for viola. To my amazement these strings are not only a bit stronger than anything I have been using so far but they also improved the quality of the sound on that viola considerably. I usually have to put strings from different brands on the viola to make up for the naturally sharper sound on the A- and the duller sound on the C-string. There was no need to do this with these new strings. This new set makes some of my violas considerably more sellable. Congratulations and thank you. Robert Cauer«

DETAILS

We are glad to introduce a significant addition to our product family of viola strings based on synthetic materials: our new string Evah Pirazzi GOLD.

This new string set has the potential both to seduce

The Evah Pirazzi GOLD strings allow the violist to explore the finest nuances of the quietest passages or to play close to the finger-board with confidence. At the same time our strings respond immediately to high bow pressure, translating the violist's energy

and inspire the violists. On the one hand they enjoy the brilliant golden tone one would normally associate with gut strings; on the other, the tuning stability and extremely short breaking-in period equal the high standard set by our Evah Pirazzi and Obligato strings.

The sound of the Evah Pirazzi GOLD is full-bodied from the very bottom to the top of the register and the design of the individual strings has been so carefully matched to one another allowing for effortlessly smooth transitions from string to string. This gives the strings both a marked presence and clarity and outstanding pedal-like resonance which is the secret of its seductive powers.

into powerful sonorities.

Such responsiveness means that violist and instrument connect without the slightest delay.

The innovative material used in the A-string of our Evah Pirazzi GOLD offers excellent response and a large, noble, and smooth sound to the very top of the register.

This A-string offers a big deep tone without metallic harshness.

Oliv

The noble sound

- finely wound and polished, handmade gut strings
- brilliant sound
- a wide range of sound colors

DESCRIPTION

Oliv Viola Strings

Features

- The sheep gut core of the Oliv strings is manufactured, wound and polished in the traditional way, by hand.
- The sound is brilliant. Oliv strings offer the typical beautiful sound of gut strings.
- The tone is rich and complex.
- Altering the gauge by 1/4 PM changes the tension by 3%.

Viola > Gut Strings > Oliv

Set

- The medium set contains the following strings:
A-aluminum 13 3/4
D-gold-aluminum 16 1/4
G-gold-silver 17
C-tungsten-silver 19 3/4

Variations

- D-silver: brilliant sound rich with overtones with an easy response;
- Version „Stiff“: D-gold-aluminum; G-gold-silver; C-wolfram-silver.
For further information see: Oliv-Steif
- C-string Eudoxa-Oliv: powerful, warm sound with an easy response.

Gauges

- Oliv strings are manufactured in up to three gauges in steps of 1/4 PM.

Tailpiece Options

- A- and D-strings have a ball-end.
- G- and C-strings have a knot.

Packaging

- envelope
- straight

Sizes

- All Oliv strings are available in 4/4.

Passione

The powerful gut string

- finely wound and polished, handmade gut strings
- warm core sound combined with a complex overtone spectrum
- great projection
- significantly increased tuning stability vs. traditional gut core strings
- easy response
- alternative A-steel string: full and round sound

DESCRIPTION

Passione Viola Strings

Features

- The sheep gut core of the Passione strings is manufactured, wound and polished in the traditional way, by hand.
- Passione strings possess a fascinating diversity of sounds, which allows musicians to alter their tone as desired.
- The core sound is full, round and warm and has a complex overtone spectrum causing brilliance and clarity and a great power of projection.
- big and powerful tone
- easy response
- Significantly reduced playing-in time: Passione strings are immediately playable other than traditional gut strings.
- significantly increased tuning stability vs. traditional gut core strings
- well-balanced set harmony
- Altering the gauge by 1/4 PM changes the tension by 3%.
- alternative A-string: The A-steel string wound with chrome steel offers a full and round sound.

Set

- The medium set contains the following strings:
A-aluminum 14 1/4, D-silver 14, G-silver 17,
C-tungsten-silver 20

Variations

- A-steel/chrome steel: exceptional full and round sound

Gauges

- Passione gut strings are manufactured in up to three gauges in steps of 1/4 PM.
- Passione A-steel string is available in soft, medium and strong.

Tailpiece Options

- All Passione strings come with a ball-end in order to facilitate the installation.
- A-steel string has a removable ball.

Packaging

- envelope
- straight

Sizes

- Passione strings are available in 4/4.

Special Features

GAUGES - As a rule of thumb for these strings:

- The thicker the string is, the more powerful is the sound and the higher is the tension. Strings in strong gauge can be used with a heavier bow and are therefore especially suitable for soloists.
- A thinner string will produce a brighter sound, however this does not mean that the sound is weaker or loses power. Strings in soft gauge are especially suitable to chamber music due to their easier response and even intonation.

STEEL A-STRING - further information:

- This string offers a remarkably full and round sound, with an inspiring warmth. In combination with the complex overtone spectrum the musician has the possibility to produce a colorful sound.
- The tone is precise and focused up to the highest register.
- great power and projection
- very easy response
- The Passione steel core A-string can be combined with any other D-, G- and C-strings.

Perpetual Beauty of Sound

- vast tone volume
- enticing playability
- clearly focused sound projection
- optimal response
- instantly reliable tuning stability

DESCRIPTION

Perpetual Viola Strings

Features

The impressive tonal potential of our Perpetual product line provides fullness and radiance with an overwhelming ease. An important and absolutely remarkable feature of the Perpetual is their immediate reliability which allows the player to trust in the strings tuning stability directly after installation.

Thanks to innovative materials and adopting new, carefully matched production methods, the development of PIRASTRO Perpetual resulted in a string set with a character not yet found in our product family. Within our range of viola strings, PIRASTRO Perpetual provides the largest sound volume and carrying power combined with a precisely focused sound projection. The clarity of its sound, however, does not diminish the abundance of colors Perpetual offers. Its vibrant tone attack and optimal string response seamlessly complement Perpetual's sound qualities from fortissimo to the most sensitive whisper.

The Perpetual viola strings react in an ideal way to the finest nuances in bow speed and pressure; this enables the musician to play with an extreme range of dynamics and expression. The innovative core material allows a comfortable smoothness during legato, shifting, string crossings, double stops and chords. The extended reverberation of the Perpetual brings forth the beauty of sound.

Tonica

*A New Formula for a
trusted favorite string*

- nylon core strings
- lively and round sound
- easy tone attack
- very easy response

DESCRIPTION

Tonica Viola Strings

Features

- Tonica strings have a core made from nylon.
- They produce a lively well-rounded sound, perfectly balanced across all four strings.
- Responding instantly to any bowing style, they reward both player and listener with an open and direct sound.
- With substantially reduced background 'hiss', players can sustain a more even tone helping to achieve smoother string crossings.
- With a highly responsive left hand feel, Tonica strings remain very easy to play all the way up to the highest positions.
- Projection and brilliance have been upgraded.
- However, this excess does not mean that the Tonica has lost its warmth.
- Playing pianissimo has considerably improved.
- All bow strokes are possible resulting in smooth crossings from one note to another.
- Easy right hand articulation and tone attack.
- Due to their medium string tension Tonica strings are suitable for all instruments.
- Insensitive to variations in temperature and humidity

Viola > Synthetic Strings > **Tonica**

Set

- A- and D-aluminum, G-silver, C-tungsten-silver

Gauges

Packaging

- envelope

DETAILS

Viola Tonica® „New Formula!“

Over the years PIRASTRO has developed new concepts and ways of constructing strings. We have made important advances in string technology and gained new expertise.

During this development phase we introduced popular brands such as the Obligato, Evah Pirazzi, Evah Pirazzi Gold, and Passione. Using all of our new knowledge and advanced techniques we decided to re-design a nylon core string set. As a result we are proud to announce that we have improved the overall tone and playability of the Tonica® viola set.

What has changed? Playability

- Easier and faster bow response.
- Considerable improvement in playing pianissimo.
- Smooth crossings from one note to another using any bow stroke.
- Easier right hand articulation and tone attack.

Sound Characteristic

New Formula set composition

The C string of the original Tonica® set was silver wound which resulted in a very warm and soft sound which created a lack of brilliance in the overall set harmony.

The C of our New Formula Tonica set is now wound with a tungsten-silver combination resulting in an improved set harmony, projection, and brilliance.

Former Viola Tonica® Strings	New Viola Tonica® Strings
4221 A Aluminum	4221 A Aluminum
4222 D Aluminum	4222 D Aluminum
4223 G Silver	4223 G Silver
4224 C Silver	4229 C Tungsten-Silver
4220 Set medium	4220 Set medium

What about the color code? How do I know whether I play the old or new Tonica® version?

We will mark the Tonica® envelopes with “New Formula!” to indicate that the violist has the new version. Please refer to the picture of the envelope. Once the Tonica® is installed on the viola the luthier

- The New Formula Tonica® now has a livelier, more open, and round sound with less side noises.
- Improved projection and brilliance without sacrificing the original formula's warmth.
- Greatly improved overall set harmony.

or player can recognize the new version by looking at the color code winding at the tailpiece end. Please refer to the picture below with the former version at the top: The last bit of the red thread facing towards the bridge is now approx. 10 mm whereas before it was only 3 mm. This change will be permanent.

Fractional sized Tonica® and Tonica® for 40cm and 43cm vibrating string length?

Same as for the full sized string sets the 3/4 - 1/2 sized and 40cm (15.75") and 43cm (16.93") ones have also been enhanced.

Violin > Synthetic Strings > [Aricore](#)

Aricore

- core made from polyester
- dark timbre
- warm sound

DESCRIPTION

Aricore Violin Strings

Features

- Aricore strings have a core made from polyester.
- dark timbre
- warm sound
- Aricore strings tune quickly.
- insensitive to variations in temperature and humidity

Set

- The medium set contains the following strings:
E-steel, A- and D-aluminum, G-silver

Variations

- A- and D-strings wound with chrome steel:
brighter sound than aluminum wound strings and
impervious to hand perspiration.

Violin > Synthetic Strings > [Aricore](#)

Gauges

- Aricore strings are available in medium gauge.

Sizes

- Available in 4/4.

Violin > Gut Strings > Chorda

Chorda

Authentic string for
baroque instruments

- plain gut strings
- typical sound for baroque instruments
- for an individual set up: various G-strings available

DESCRIPTION

Chorda Violin Strings

Features

- Chorda E-, A-, and D-strings are plain gut strings, the G-string is wound.
- authentic string for baroque instruments
- very low string tension, comfortable left hand feeling
- designed for 440 Hz tuning
- For 415 Hz tuning, please use "strong" gauge.
- Altering the gauge by 1/4 PM changes the tension by 3%.

Violin > Gut Strings > Chorda

Set

- The medium set contains the following strings:
E-plain gut 11 1/2
A-plain gut 14 1/2
D-plain gut 19 1/2
G-silver-plated copper wire unpolished 16

Variations

- G-plain copper: available in three gauges in steps of 1/2 PM and it has a darker sound than the standard G-string.
- G-Chordaflex 29 PM: plain and twisted gut string.

Gauges

- Chorda strings are manufactured in three gauges in steps of 1/4 PM.

Tailpiece Options

- Chorda E-, A- and D-strings without knot
- G-strings with knot

Packaging

- envelope

Sizes

- Chorda strings are available in 4/4.

Violin > Steel Strings > **Chromcor**

Chromcor

The attractively priced
steel string

- steel strings
- clear and very brilliant sound
- especially long-lasting

DESCRIPTION

Chromcor Violin Strings

Features

- Chromcor strings have a single filament steel core wound with chrome steel.
- clear and very brilliant sound, warmer than Piranito
- big tonal volume
- Suitable for all musicians, esp. for fiddler searching for clear and brilliant sound.
- very easy response
- Chromcor strings are wound with chrome steel and are therefore long-lasting. Chrome steel cannot corrode and is not affected by hand perspiration.
- suitable also for electric or electrically-amplified violins

Violin > Steel Strings > Chromcor

Set

- E-chrome steel; A-, D- and G- wound with chrome steel

Variations

- A Eudoxa-Chromcor – warmer sound

Eudoxa

The traditional gut core string

- finely wound and polished, handmade gut strings
- warm, complex and rounded sound
- low string tension

DESCRIPTION

Eudoxa Violin Strings

Features

- The sheep gut core of our Eudoxa strings is manufactured, wound and polished in the traditional way, by hand.
- well-balanced warm tone with a great diversity of sounds
- low string tension and a comfortable left hand feeling
- ideal for orchestra, chamber music and studio takes
- Altering the gauge by 1/4 PM changes the tension by 3%.

Violin > Gut Strings > Eudoxa

Set

- The medium set contains the following strings:
E-steel/aluminum
A-aluminum 13 3/4
D-aluminum 16 3/4
G-silver 15 3/4
- The set „E-steel“ contains the plain E-steel string.

Variations

- E-plain steel: more brilliant sound than the wound E-string.
- Version „Stiff“: D- and G-strings have a darker and more powerful sound. For further information please refer to : Eudoxa-Stiff.

Gauges

- Eudoxa A-, D- and G-strings are manufactured in up to five gauges in steps of 1/4 PM.
- The E-steel/aluminum is available in medium and strong gauge.
- E-plain steel is only available in medium gauge.

Tailpiece Options

- Eudoxa A-strings come with a ball, D- and G-strings have a knot.
- The E-strings are available with ball- or loop-end.

Packaging

- envelope
- straight

Sizes

- 4/4

Evah Pirazzi

The Soloists' Choice

- modern synthetic core strings
- very intensive and powerful
- excellent for soloists
- complex sound, rich with overtones
- excellent response

DESCRIPTION

Evah Pirazzi Violin Strings

Features

- Evah Pirazzi strings have a core made from a modern synthetic multifilament fibre.
- very intensive and powerful, excellent for Soloists
- outstanding playability and exceptional response at any of the dynamic levels
- complex sound, rich with overtones based on a brilliant core sound
- enormous projection
- Evah Pirazzi strings translate every minute impulse from bow and fingers into beautiful sounds.
- expressive, great nuances
- enormous dynamic range
- outstanding tuning stability
- absolutely insensitive to variations in temperature and humidity
- also suitable for electric violins or violins equipped with piezo-pickups

Set

- The standard set contains the following strings:
E-silvery steel, A-aluminum, D- and G-silver
- The set E-goldsteel: E-goldsteel 0.26mm,
A-aluminum, D- and G-silver
- The set 5-string: E-silvery steel,
A-aluminum, D- and G-silver, C-tungsten-silver
Only available with ball-end.

Variations

- E-platinum: While developing our platinum-coated violin E-string we have consistently received positive assessments that our new Platinum E-string allows for new dimensions in violin playing. This new Platinum-E provides the violinist with an immense abundance of sound colors, an overtone-rich radiance to its large warm core tone, and a wide sound projection. It has also been assessed that the sound character of our Platinum E-string exerts a "suggestive force" and "Just listen! This E is undoubtedly the new benchmark!"
With our new Platinum E-string, the transitions from the A to the E are designed to be effortless without any breaks. This coupled with the perfect response of our Platinum-E helps create an experience of new freedom in the sound design. The surface of the platinum coating provides the pleasant feeling of stability under the fingers of the left hand, which greatly benefits changes in position and vibrato.
- It blends harmoniously with all PIRASTRO violin strings, from Obligato to Perpetual and Passione to Evah Pirazzi Gold. This Platinum-E is therefore versatile and is a quality addition to our collection of PIRASTRO Violin E-strings.
We will also deliver our new PIRASTRO Platinum E-string with a newly designed loop end, which allows easy removal of the ball by hand – without tools; allowing the player to use both types of fine-tuners.
- E-goldsteel: more brilliant and powerful sound than Silvery Steel E-string. This string also sounds different than Oliv and Obligato goldsteel E-strings. See also E-strings.
- Violin Strings for ZMT: These are specialized, elongated G strings, custom made for ZMT. If you are interested in these strings please [contact us](#).

Gauges

- soft
- medium
- strong
- All straight strings are only available in medium gauge.

Tailpiece Options

- Evah Pirazzi A-, D-, G- and C-strings have a ball-end.
- The E-string is available with ball or loop-end.

Packaging

- envelope
- straight

Sizes

- 4/4
- 3/4 – 1/2
- 1/4 – 1/8

Special Features

The core material of all four string lines, Evah Pirazzi Gold, Evah Pirazzi, Obligato and Violino consists of a new synthetic material that we have co-developed with our supplier and which we obtain exclusively.

We are convinced that this new core material is superior to other synthetic materials and steel because:

- it offers an unmatched wide range of sounds,
- absolutely insensitive to variations in temperature and humidity, and
- it offers musicians an unknown dynamic range.

In combination with our newest production techniques we are now able to offer a new family of strings, which offer:

- a complex tone, rich with overtones;
- bring out finest nuances in pp and great depth in ff;
- great playability;
- outstanding response and
- outstanding tuning stability
- which can be used in any environment no matter the degree of humidity or changes of temperature.

Evah Pirazzi Gold

A refined and powerful string

- modern synthetic core strings
- brilliant, golden tone
- impressive projection
- full-bodied sound
- outstanding playability and instant response

DESCRIPTION

Evah Pirazzi Gold Violin Strings

Features

- Evah Pirazzi Gold strings have a core made from a modern synthetic multifilament fibre.
- brilliant, golden tone
- full-bodied and big sound from the very bottom to the top of the register
- a wide range of sound colors
- The great dynamic range allows skilled players to explore confidently both the finest nuances of quiet passages and create powerful sonorities when playing close to the bridge or using a strong bow arm.
- instant response throughout the complete dynamic range
- very short break-in time, even shorter than Evah Pirazzi and Obligato
- excellent tuning stability
- absolutely insensitive to variations in temperature and humidity
- Stainless Steel E-string: It has an excellent response and generates a refined and smooth sound right to the very top of the register.

Set

- The standard set contains the following strings: E-stainless steel, A-aluminum, D-silver, G-gold
- Alternative set G-silver: E-stainless steel, A-aluminum, D-silver, G-silver

Variations

- G-gold – Wound with a pure gold wire it offers a round and full tone
- G-silver – Very dynamic sound which emphasizes a more brilliant tone
- For further information concerning E-strings: please see E-strings.
- Violin Strings for ZMT: These are specialized, elongated G strings, custom made for ZMT. If you are interested in these strings please contact us.

Gauges

- medium

Sizes

- Evah Pirazzi Gold strings are available in 4/4.

Packaging

- straight

Special Features

The core material of all four string lines, Evah Pirazzi Gold, Evah Pirazzi, Obligato and Violino consists of a new synthetic material that we have co-developed with our supplier and which we obtain exclusively.

We are convinced that this new core material is superior to other synthetic materials and steel, because:

- it offers an unmatched wide range of sounds,
- absolutely insensitive to variations in temperature and humidity, and
- it offers musicians an unknown dynamic range.

In combination with our newest production techniques we are now able to offer a new family of strings, which offer:

- a complex tone, rich with overtones;
- bring out finest nuances in pp and great depth in ff;
- great playability;
- outstanding response and
- outstanding tuning stability
- which can be used in any environment no matter the degree of humidity or changes of temperature.

DETAILS

We are glad to introduce a significant addition to our product family of violin strings based on synthetic materials: our new string Evah Pirazzi GOLD. This new string set has the potential both to seduce and inspire the violinists. On the one hand they enjoy the brilliant golden tone one would normally associate with gut strings; on the other, the tuning stability and extremely short breaking-in period equal the high standard set by our Evah Pirazzi and Obligato strings. The sound of the Evah Pirazzi GOLD is full-bodied from the very bottom to the top of the register and the design of the individual strings has been so carefully matched to one another allowing for effortlessly smooth transitions from string to

explore the finest nuances of the quietest passages or to play close to the finger-board with confidence. At the same time our strings respond immediately to high bow pressure, translating the violinist's energy into powerful sonorities. Such responsiveness means that violinist and instrument connect without the slightest delay. We offer two versions of the G-string: one wound with gold and one with silver. This flexibility allows the performer to gauge which string will match his or her personal preference as well as that of the instrument. The gold-wound G-string gives a round and full tone, while that of the silver wound G-string emphasizes brightness, neither material detracting from the rich volume which is the

string. This gives the strings both a marked presence and clarity and outstanding pedal-like resonance which is the secret of its seductive powers. A violinist who recently tested this set of strings spontaneously decided to use it for a concerto appearance and told us: "One cannot help but feel compelled to listen, the inspiration is enormous." The Evah Pirazzi GOLD strings allow the violinist to

hallmark of this product. Matching the G-string, the D- and A-strings offer large tone, effortless response, and a projection of sound that is both far-reaching and focused. The innovative material used in the E-string of our Evah Pirazzi GOLD offers excellent response and a large, noble, and smooth sound to the very top of the register.

Evah Pirazzi Neo

Setting a new benchmark

- modern synthetic string with outstanding construction
- highlights the instrument's best qualities to encourage flowing inspiration
- malleable sound, powerful, centered, noble and luminous
- excellent tuning stability and further improved playing-in time

DESCRIPTION

Evah Pirazzi Neo Violin Strings

Features

When developing new strings for orchestral string instruments, personal contact and intellectual exchange with musicians play a very important role. Such is the case with our new violin string set *Evah Pirazzi Neo*: designed in close collaboration and with the wonderful support of Janine Jansen. Together we developed a string set that offers great power and volume in its low frequencies, brilliance and focus across the entire sound spectrum and an inspiringly simple and direct response. In the words of Janine Jansen: "Excellent malleable sound, big, powerful, centered, noble and luminous. The strings stay in tune incredibly quickly, are very easy to work with from the start and feel extremely comfortable under the fingers."

Using a new manufacturing process, *Evah Pirazzi Neo* synthetic strings are engineered to have exceptional tuning stability and are therefore ready to play immediately after installation. Their particular construction and carefully chosen materials generate a high carrying capacity and projection, which is notably supported by a unique E-string whose special gold coating provides depth and brilliance to the entire set. With extra support from technical measurements and analyses, we constructed the *Evah Pirazzi Neo* violin strings to have a distinctive overtone spectrum with strong fundamentals, resulting in an overall clear and powerful sound. Most importantly, we did not need to increase the tension of the individual strings to accomplish any of this.

Our new *Evah Pirazzi Neo* violin strings are an exciting addition to our Evah Pirazzi string family. Below we describe the differences in sound between the various Evah Pirazzi violin strings.

Evah Pirazzi (2000): This set of strings is characterized by an overtone-rich, rather bright sound and a relatively strong background noise, which ensures carrying capacity, power and projection.

Evah Pirazzi Gold (2012): In contrast, these strings are designed to emphasize the warm, round and somewhat darker sound spectrum.

Evah Pirazzi Neo (2025): In this new development, the background noise of the original Evah Pirazzi is reduced while maintaining the strings' full carrying capacity and power. *Evah Pirazzi Neo* is designed to combine effortless note and string transitions with easy response, tonal clarity and far-reaching projection.

The three different sets in our Evah Pirazzi violin string family allow musicians to customize their sets for both personal taste and the respective sound characteristics of their instruments.

Set

- Standard set: E-gold-plated carbon steel, A-aluminum, D- and G-silver

No.1

The Universal E-String

- wound steel E-string
- warm, sweet and brilliant sound
- outstanding response
- no whistling of the open E-string

DESCRIPTION

No.1 Violin String

Features

- The No.1 E-string has a coated carbon steel core material with a high-tensile strength and is wound with a very thin chrome steel flat-wire.
- warm, sweet and brilliant sound
- outstanding response
- no whistling of the open E-string
- As the No.1 E-string is wound with chrome steel, it is long-lasting. Chrome steel cannot corrode and is not affected by hand perspiration.

Gauges

- soft, medium, strong

Tailpiece Options

- The No.1 is available with ball or loop-end.

Violin > Steel Strings > No.1

Packaging

Sizes

- No.1 E-string is available in 4/4.

NEWS NOV 2002

The No.1 E-string is a newly designed string that offers a full rounded off and sustainable tone in all positions, whilst at the same time maintaining full flexibility over the whole dynamic range.

This string is based on a coated carbon steel core material with a high-tensile strength and is wound with a very thin chrome steel flat-wire.

Outstanding features are the string's brilliant yet sweet sound, the outstandingly easy response preventing the whistling of the empty strings.

The No.1 E-string has been specifically designed to be "universal" and can be matched with all existing A-, D- and G-strings.

Violin > Synthetic Strings > **Obligato**

Obligato

The all-round synthetic core string

- modern synthetic core strings
- brilliant and full sound
- great tone volume
- excellent response

DESCRIPTION

Obligato Violin Strings

Features

- Obligato strings have a core made from a modern synthetic multifilament fibre.
- Obligato strings sound warm and full, yet have a brilliant, rich overtone spectrum and focused tone.
- excellent playability and response throughout the entire dynamic range
- great tone volume
- excellent tuning stability
- absolutely insensitive to variations in temperature and humidity

Set

- The standard set contains the following strings: E-goldsteel, A-aluminum, D- and G-silver.
- For further information concerning E-strings please refer to: E-strings.

Variations

- E-strings: a regular steel E-string is also available
- A-chrome steel: impervious to hand perspiration, brighter sound than A-aluminum
- D-aluminum: very warm sound
- Violin Strings for ZMT: These are specialized, elongated G strings, custom made for ZMT.

Violin > Gut Strings > Oliv

Oliv

The noble sound

- finely wound and polished, handmade gut strings
- brilliant sound
- a wide range of sound colors

DESCRIPTION

Oliv Violin Strings

Features

- The sheep gut core of the Oliv strings is manufactured, wound and polished in the traditional way, by hand.
- The sound is brilliant. Oliv strings offer the typical beautiful sound of gut strings.
- The tone is rich and complex.
- Altering the gauge by 1/4 PM changes the tension by 3%.
- The silver D-string is richer in overtones and has easier response than the gold-aluminum which is included in the set.

Violin > Gut Strings > Oliv

Set

- The medium set contains the following strings:
E-goldsteel medium, A-aluminum 13 1/2,
D-gold-aluminum 16 3/4,
G-gold-silver 15 3/4.
- For further information concerning E-strings
please refer to: E-strings.

Variations

- D-silver is available in four gauges.
- Version „Stiff“: D- and G-strings have a darker and
more powerful sound. For further information
please refer to: Oliv-Stiff.

Gauges

- Oliv A-, D- and G-strings are manufactured in up to
five gauges in steps of 1/4 PM.
- The Oliv E-goldsteel string is available in soft/dünn
(0.25mm), medium (0.26mm) and strong/stark
(0.27mm).

Tailpiece Options

- Oliv A-strings have a ball-end,
D- and G-strings have a knot.
- The E-strings are available with ball or loop-end.

Packaging

- envelope
- straight

Sizes

- Oliv strings are available in 4/4.

Passione

The gut string with
increased tuning
stability

- finely wound and polished, handmade gut strings
- powerful sound
- very easy response
- significantly increased tuning stability vs. traditional gut core strings

DESCRIPTION

Passione Violin Strings

Features

- The sheep gut core of the Passione strings is manufactured, wound and polished in the traditional way, by hand.
- The core sound is full, round and warm and has a complex overtone spectrum causing brilliance and clarity and a great power of projection.
- Passione strings possess a fascinating diversity of sounds, which allows musicians to alter their tone as desired.
- The sound is big and powerful.
- very easy response on all levels of the dynamic range
- The accuracy of the contact point is easily manageable.
- Significantly reduced playing-in time: Passione strings are immediately playable other than traditional gut strings.
- Altering the gauge by 1/4 PM changes the tension by 3%.

Set

- The medium set contains the following strings: E-Silvery Steel 26,
A-aluminum 13 1/2, D-silver 13 1/2,
G-silver 16 1/2

Tailpiece Options

- All A-, D- and G-strings come with a ball-end in order to facilitate the installation.
- The E-strings are available with ball- or loop-end.

Gauges

- Passione A-, D- and G-strings are manufactured in up to five gauges in steps of 1/4 PM.
- The Passione E-string Silvery Steel is available in the following gauges: 0.255mm – 0.26mm – 0.267mm.

Packaging

- envelope
- straight

Sizes

- All Passione strings are available in 4/4.

Special Features

The length of colored silk at the peg end of the Passione G-string is different than the length of the A- and D- strings. This has been done intentionally and is part of the construction of the G-string. The special length of the G-string's color winding at the peg end prevents the string from breaking in the peg box. At the latest after two to three days the stretching process will be finalized.

As a result the silk winding will no longer reach over the nut. We have made numerous tests with this special G on various violins all differing in size and the string has always fitted. On some violins it takes longer, with other violins the string even fits from the beginning.

DETAILS

Since some time, a new trend evolved especially amongst young classical violinists who search for a full and complex sound to start to experiment with violin strings with a gut core. Baroque strings or gut strings for a historical set up are not meant here, but modern gut strings for the classical violinist in the tradition of our Eudoxa and Oliv strings. As the leading gut string manufacturer in the world PIRASTRO has now picked up this trend and developed a new gut core string called Passione.

Our development of the Passione aimed at reducing the playing-in-time of traditional gut strings and to increase their tuning stability without losing the beauty of the gut sound. The gentle processing of the gut core is key to the conservation of the ravishing beauty of gut strings' sound. Our expertise has been developed since 1798 and has been carefully protected over generations within PIRASTRO's employees.

The combination in manufacturing of modern synthetic and traditional gut technology made it possible to retain the sound beauty of gut core strings and to increase significantly the tuning stability and the break-in-time. Passione strings possess a fascinating diversity of sounds, which allows musicians to alter their tone as desired.

To such an outstanding extent this is still only possible with gut core strings. The core sound is full, round and warm and has a complex overtone spectrum causing brilliance and clarity and a great power of projection. Passione's sound can be big and powerful as well as gentle and tender. Passione is a modern reliable gut string for the demanding violin professional. The set is well-balanced; the response is easy on all levels of the dynamic range. The accuracy of contact point is easily manageable, similar to Obligato, Wondertone Solo and Evah Pirazzi.

Gauges and technical information:

The plurality of gauges allows musicians to choose their preferred gauge and makes it possible to respond to the individual tension requirements of their instruments.

As a rule of thumb:

- The thicker a string is, the more powerful is the sound and the higher is the tension.
- A thinner string will produce a brighter sound, however this does not mean that the sound is weaker or loses power.

There is no need to change the height of the bridge for using Passione strings.

Passione Solo

The gut string for soloists

- finely wound and polished, handmade gut strings
- very powerful and brilliant sound
- great projection
- very easy response
- significantly increased tuning stability vs. traditional gut core strings

DESCRIPTION

Passione Solo Violin Strings

Features

- The sheep gut core of the Passione Solo strings is manufactured, wound and polished in the traditional way, by hand.
- soloistic tone with strong power and brilliance
- extended range of dynamics and tone colors
- very powerful and brilliant sound with great projection
- Significantly reduced playing-in time: Passione strings are immediately playable other than traditional gut strings.
- very easy response

Set

- E-Silvery Steel, A-aluminum, D- and G-silver

Packaging

- envelope
- straight

Gauges

- Passione Solo is available in medium gauge only. The strings are slightly thicker than the medium gauge of the Passione strings.
- The Passione Solo Silvery Steel E-string gauge is medium (0.26mm).

Tailpiece Options

- All A-, D- and G-strings come with a ball-end in order to facilitate the installation.
- The E-strings are available with ball- or loop-end.

Sizes

- All Passione Solo strings are available in 4/4.

Special Features

The length of colored silk at the peg end of the Passione Solo G-string is different than the length of the A- and D- strings. This has been done intentionally and is part of the construction of the G-string. The special length of the G-string's color winding at the peg end prevents the string from breaking in the peg box. At the latest after two to three days the stretching process will be finalized.

As a result the silk winding will no longer reach over the nut. We have made numerous tests with this special G on various violins all differing in size and the string has always fitted. On some violins it takes longer, with other violins the string even fits from the beginning.

DETAILS

The introduction of the violin string set Passione underlines our conviction that young violinists enthusiastically taken up our patented modern violin gut-core string set. The feedback about Passione

available. This focus allows musicians an effortless presence in the orchestra and the solo violin develops a noble projection within the orchestra (e.g. violin concerts of Brahms, Tchaikowsky,

emphasizes its tuning stability, its effortless response and its quick playability. Violinists have also confirmed the complexity of sound and wide range of colors.

Now the Passione Solo for violin adds another way to express musical ideas. The range of dynamics has been extended so that a soloist tone with strong power and brilliance is

Sibelius, Bartók or Alban Berg).

The violin set Passione Solo captivates with its precious smoothness and effortless response. The set combines a radiating beautiful sound with strong power and brilliance.

Perpetual Beauty of Sound

- vast tone volume
- enticing playability
- clearly focused sound projection
- optimal response
- instantly reliable tuning stability

DESCRIPTION

Perpetual Violin Strings

Features

The impressive tonal potential of our Perpetual product line provides fullness and radiance with an overwhelming ease. An important and absolutely remarkable feature of the Perpetual is their immediate reliability which allows the player to trust in the strings tuning stability directly after installation.

Thanks to innovative materials and adopting new, carefully matched production methods, the development of PIRASTRO Perpetual resulted in a string set with a character not yet found in our product family. Within our range of violin strings, PIRASTRO Perpetual provides the largest sound volume and carrying power combined with a precisely focused sound projection. The clarity of its sound, however, does not diminish the abundance of colors Perpetual offers. Its vibrant tone attack and optimal string response seamlessly complement Perpetual's sound qualities from extreme fortissimo to the most sensitive whisper.

The Perpetual violin strings react in an ideal way to the finest nuances in bow speed and pressure; this enables the musician to play with an extreme range of dynamics and expression. The innovative core material allows a comfortable smoothness during legato, shifting, string crossings, double stops and chords. The extended reverberation of the Perpetual brings forth the beauty of sound.

Set

- Standard set: E-platinum 26, A-aluminum, D- and G-silver
- Set A-steel/chrome steel: E-platinum 26.7, A-steel/chrome steel, D- and G-silver
- Set Cadenza: E-steel, A-aluminum, D- and G-silver

Variations

E-Platinum

E-Platinum – The Perpetual set contains a platinum plated E-string which we offer in the gauges 0.26 mm (sounds silvery and very brilliant) and 0.267 mm (provides a slightly darker, more voluminous tone). For more information please visit: [E-Strings](#)

A-Steel/Chrome Steel

A-Steel/Chrome Steel – Aiming first of all to provide a choice for all players we additionally developed a high quality, steel core A-string with a chrome-steel winding. Starting with its sound spectrum, this A-string has nothing in common with the traditional steel string. It sounds rounder, more colorful and very voluminous. Combined with the synthetic core Perpetual G- and D-strings, this new steel A offers an organic transition with the D-string. With only a minimal increase in tension this steel A-string does not burden the instrument more than the synthetic core A-string. The steel A comes with a removable ball and is compatible with all types of fine tuners.

Set Cadenza

The new Perpetual Cadenza violin set is characterized by an enchanting balance between brilliance and depth of sound, combined with noticeably easy playability. Its rich overtones inspire musicians to explore nuances in timbre as the violin continues to resonate freely, facilitated by the remarkable response of the strings while playing in all areas of the bow. Due to low string tension, the left hand effortlessly achieves optimal artistry in shifts and portamenti.

Tailpiece Options

- The E-string is available with a removable ball end.
- A-, D- and G-strings have a ball-end.
- The A-steel/chrome steel is available with a removable ball end.

Tonica

A New Formula for a trusted favorite string

- nylon core strings
- lively and round sound
- easy tone attack
- very easy response

DESCRIPTION

Tonica Violin Strings

Features

- Tonica strings have a core made from nylon.
- They produce a lively well-rounded sound, perfectly balanced across all four strings.
- Responding instantly to any bowing style, they reward both player and listener with an open and direct sound.
- With substantially reduced background 'hiss', players can sustain a more even tone helping to achieve smoother string crossings.
- With a highly responsive left hand feel, Tonica strings remain very easy to play all the way up to the highest positions.
- Projection and brilliance have been upgraded.
- However, this excess does not mean that the Tonica has lost its warmth.
- Playing pianissimo has considerably improved.
- All bow strokes are possible resulting in smooth crossings from one note to another.
- Easy right hand articulation and tone attack.
- Due to their medium string tension Tonica strings are suitable for all instruments.
- Insensitive to variations in temperature and humidity

Violin > Synthetic Strings > **Tonica**

Set

- The standard set contains:
E-Silvery Steel, A-aluminum, D- and G-silver.
- The set E-Gold Label contains:
E-Gold Label medium, A-, D- & G-Tonica medium.
Only available with ball-end.
Rich overtones and strong round sound.
- The set E-Aluminum contains:
E-steel wound with aluminum, A-aluminum, D- and G-silver.
Only available in medium gauge.

Variations

- E-steel wound with aluminum – warmer sound
- D-aluminum – warmer sound

Violino

The very warm sounding
synthetic core string

- modern synthetic core strings
- warm, smooth and round sound
- soft and gentle touch
- excellent response even with low bow pressure
- low string tension

DESCRIPTION

Violino Violin Strings

Features

- Violino strings have a core made from a modern synthetic multifilament fibre.
- warm, smooth and round sound
- It is especially easy to explore the subtle differences of tone colors with these strings.
- low string tension
- excellent tuning stability
- Violino strings are very easy to play, have a soft and gentle touch and a fast response, allowing the strings to speak easily even at the lowest bow pressure.
- absolutely insensitive to variations in temperature and humidity

Set

- E-steel, A-aluminum, D- and G-silver

Gauges

Special Features

The core material of all four string lines, Evah Pirazzi Gold, Evah Pirazzi, Obligato and Violino consists of a new synthetic material that we have co-developed with our supplier and which we obtain exclusively.

We are convinced that this new core material is superior to other synthetic materials and steel because:

- it offers an unmatched wide range of sounds,
- absolutely insensitive to variations in temperature and humidity, and
- it offers musicians an unknown dynamic range.

In combination with our newest production techniques we are now able to offer a new family of strings, which offer:

- a complex tone, rich with overtones;
- bring out finest nuances in pp and great depth in ff;
- great playability;
- outstanding response and
- outstanding tuning stability
- which can be used in any environment no matter the degree of humidity or changes of temperature.

Wondertone Solo

The focused and clear
synthetic core string

- modern synthetic core strings
- direct, brilliant and clear tone
- focused sound
- outstanding response

DESCRIPTION

Wondertone Solo Violin Strings

Features

- We have especially modified the core material used for Evah Pirazzi Gold, Evah Pirazzi, Obligato and Violino strings.
- The tone is direct, brilliant and clear
- no background "hiss"
- outstanding response
- outstanding tuning stability
- insensitive to variations in temperature and humidity

Violin > Synthetic Strings > **Wondertone Solo**

Set

- The standard set contains the following strings:
E-Silvery Steel, A-aluminum, D- and G-silver
- Set A-steel: E-Silvery Steel, A-steel/aluminum, D- and G-silver

Variations

- The steel A-string has a brilliant and very concise tone and allows a smooth transition to the E-string. The string combo follows the string choice in the Russian tradition of great soloists such as David Oistrach who used to play on his Strad PIRASTRO G- and D-gut strings combined with steel A- and E-strings.
- E-string also available as "Advanced Steel" – round and warm sound. Gauges: 0.26mm (medium) and 0.267mm (strong); please also refer to: E-strings.

Gauges

- medium
